

Bridget Bulger Audio Project  
 Sound Script Version 1  
 4 December 2009

Four friends getting in a car on a weekend evening, driving to their destination, stopping at a drive-thru on the way. Continuous “white noise” of car running/driving in background. Recording gears in car and car running separately. Also dialogue will be recorded while car is off in case of interference. Music will be made on Garageband and mixed in afterwards. Friends arrive at destination.

	<b>Dialogue</b>	<b>SFX</b>	<b>Music</b>
	Friends walking to car	Footsteps/walking, unlocking car	
		Car doors opening	
		Car doors closing once people get in	
	Possible chatter	Key turning in ignition
